Dramatic Masterpiece, "The Miracle Man," Starts Sunday

Boasting one of the most distinguished all-star casts of the current season of cinematography, "The Miracle Man," classic American play, moves into the Torrance Theatre on Sunday next for a three-day run.

"The Miracle Man" thus appears in the fourth phase of a metamorphosis which is more the rule than the exception in these days of harking back to the old stand-bys for new thrills in the amusement world. It first saw the light of a fascinated reader's eye when it was published as a novel; next it became a successful Broadway play; thereafter a silent movie (in 1919) and now—a talkie. No doubt it will one day enter a fifth transformation and become a televisionization but for the present it serves well the discriminating needs of America's theatre-going millions.

The cast of "The Miracle Man" is an important one. Sylvia Sydney and Chester Morris play the leading romantic roles, as the girlfriend and the dapper young confidence crook. These were the roles played by Betty Gibson and Thomas Meighan in '19. Hobart Bosworth plays the central role as the faith-healer patriarch, John Wray, who plays the part of the fake paralytic, "The Frog"—the part which made Lon Chaney famous on the screen 13 years ago.

Others who are prominently cast are Irving Pichel, Robert Coogan, Boris Karloff, Ned A. Sparks, Lloyd Hughes, Virginia Bruce and Eric Ellisor.

The story deals with the reformation of a gang of crooks by a faith-healer, known as the Patriarch in the vicinity where he lives. Chester Morris plans to exploit the Patriarch for the benefit of the gang.

Sylvia Sydney, Morris' girl, is to impose herself upon the Patriarch, as his granddaughter, while John Wray, known as the Frog, a supple, jointed faker, is to pretend a marvelous cure by the faith-healer and rise from the ground before the astonished crowd. Sylvia is then to collect the shower of money which is always abundant after a spectacular healing.

The plan works admirably, but to the astonishment of the gang, Robert Coogan, a truly crippled boy, is cured at the same gathering. The gang is so impressed by the miracle and by the simple goodness of the Patriarch, that they refuse to continue their deception.

Barracuda Are Biting Says Capt.

HERMOSA BEACH.—Barracuda were biting with all their old-time vigor here yesterday, both on the live bait boats and on the big Olympic fishing barge. Two fishermen on one of the live bait boats brought in five sacks full of the "snakes." Halibut also continue to be taken in large numbers by live bait boat men, barge fishermen and pier anglers.

Capt. J. M. Andersen, skipper of the Olympic, reports that the weather is ideal at present for deep-sea fishing and that warmer weather is just around the corner.

Increased BUYING POWER of the dollar justifies the return to normal spending

Thoughtful people all over California are returning to normal buying habits—and they are getting some of the greatest values of their lives. Building materials, automobiles, clothing and high grade merchandise of every kind are being sold at temptingly low prices. Now is the time to take full advantage of the increased purchasing power of the dollar, stimulate every line of business, and return the unemployed to their jobs. Even reduced incomes are balanced by corresponding reductions in the prices of nearly all commodities. There is no excuse for not satisfying one's normal needs. Prosperity depends largely upon both banked and expended money. Until idle money circulates freely, unemployment will continue to be with us. The return of good times is strictly up to each one of us. Think it over.

The Tire That Taught THRIFT to Millions

GUM-DIPPED CORDS
The Firestone patented Gum-Dipping process transforms the cotton cords into a strong, tough, slippy unit. Liquid rubber penetrates every crevice and every fiber, guarding against internal friction and heat, greatly increasing the strength of the cord body, and giving longer life.

TWO EXTRA GUM-DIPPED CORD PLIES UNDER THE TREAD

This is a patented construction, and the two extra Gum-Dipped cord plies are so placed that you get 50% stronger bond between tread and cord body, and tests show 26% greater protection against punctures and blowouts. It sets a new standard for tire performance on high speed cars.

NON-SKID TREAD

Tough, live rubber specially compounded for long, slow wear. Scientifically designed non-skid gives greater traction and safe, quiet performance.
